FLAWLESS SOUND COMBINED WITH A UNIQUE DESIGN

In a world where architects and interior designers are faced with a growing number of stringent requirements, Active Audio offers a completely new approach to loudspeakers that fulfils a need that until now has gone unanswered, namely the ability to combine flawless acoustic performance aesthetic design and personalisation.

Thanks to its sleek design, Vendôme will blend seamlessly into any premium or high-end store, restaurant, lounge bar, music bar and hotel. Vendôme will also thrill music lovers with its acoustic qualities, including speed, transparency and natural reproduction.

Vendôme takes the best of what the professional audio and high fidelity sectors have to offer.

The loudspeakers in the Vendôme range deliver the same reliability as pro audio products and are capable of operating at high output levels without any deterioration in quality.

Furthermore, they can be installed in any venue with their stylish and customisable design, whether blending into the scenery or specifically used as a decorative feature. Ultimately with the Vendôme range, loudspeakers no longer need to be hidden away out of sight.

Vendôme

WHATEVER YOU DESIRE

To bring a unique touch to your venues, Vendôme is available in four exclusive series :

CLASSIC SERIES

COLOR SERIES

ART SERIES

CUSTOM SERIES

Simple yet timeless finishes

Natural

Pure White

CLASSIC SERIES

COLOR SERIES

Go for the plain color of your choice.
Be daring and be bold.

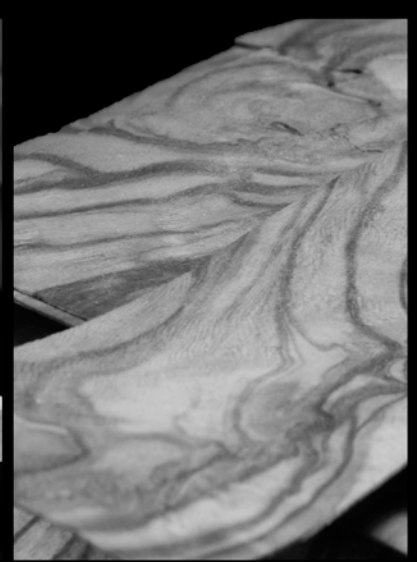

ART SERIES

This series is an open invitation to let the
imagination run wild.

Loudspeakers are provided with a coat of
primer to serve as a blank canvas for all your
ideas.

Supplied with a masking kit.

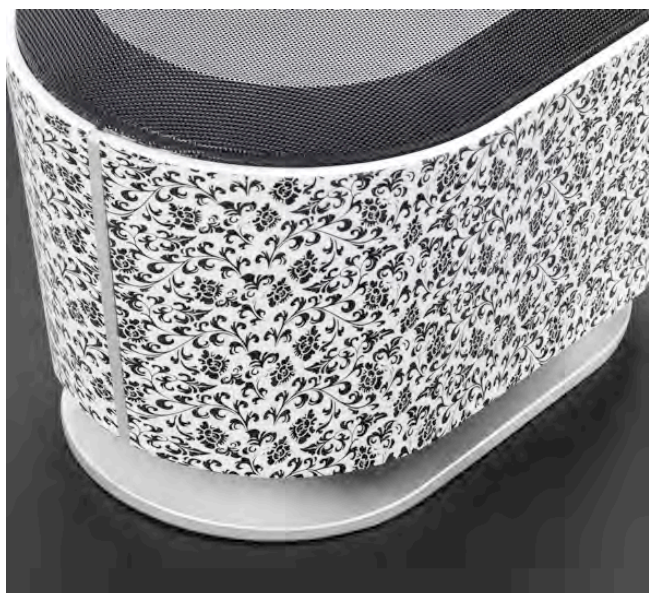

MEET THE CUSTOM SHOP

The Active Audio Custom Shop has selected some of the best master cabinet-makers available in Brittany to work on the Vendôme range. Each Vendôme Custom Series speaker is a one-off piece and is entirely handcrafted in France according to your requirements.

You can now choose from a finish incorporating your brand or fulfilling your color specifications, a precious wood veneer, an epoxy-glazed carbon fiber... the only limit is your imagination. The Active Audio Custom Shop is the place for turning your dreams into reality.

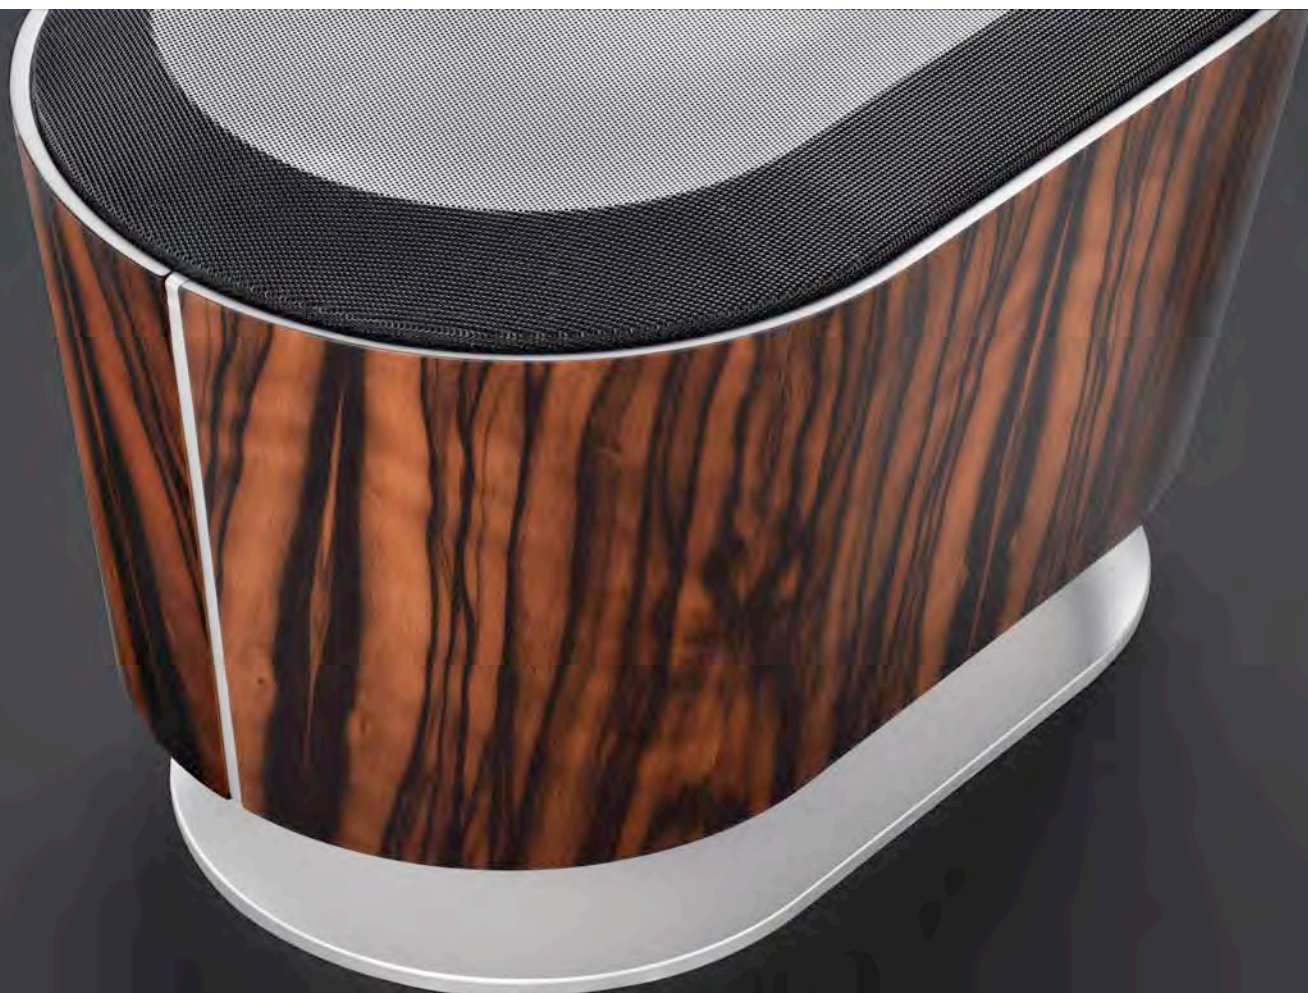

When we began picturing the Vendôme range in our minds, we were determined to push the envelope even further than the products currently available in the market : it is not enough to just be reliable, loud or beautiful. We wanted a product that would harness all three qualities at the same time while offering so much more.

The Vendôme Eight was thus born: a loudspeaker combining the qualities of a professional loudspeaker containing an 8" woofer with a design that cus-

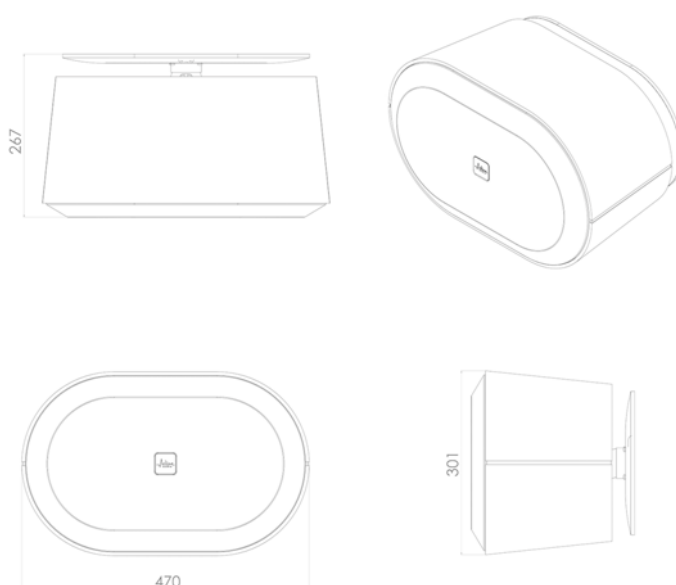

tomers would want to keep in full view.

Say goodbye to angles and unrefined paintwork. Cutting an all-curve figure, Vendôme Eight uses noble materials and comes in a range of high-end finishes.

With its extended bandwidth and high dynamic capacities, Vendôme Eight will be the perfect ally for venues that may sometimes require sound levels kept at a comfortable level.

AT THE HEART OF THE VENDÔME EIGHT

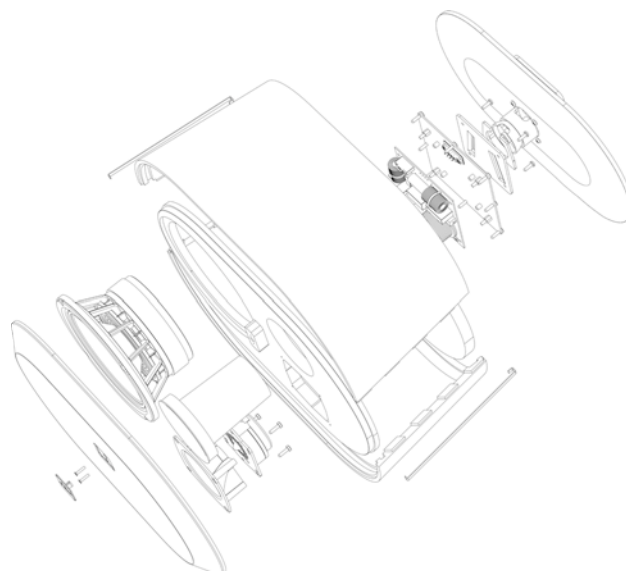

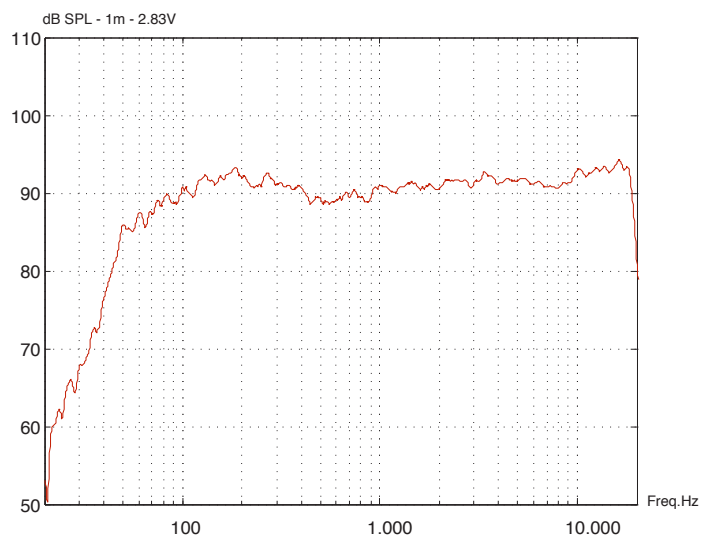

Technical specifications

Dimensions	47 x 30 x 23cm
Weight	8.0kg
Loudspeaker materials	Multi-ply wood
Standard finishes	Deep Black, Pure White and Natural

Nominal impedance	8 Ohms
Maximum power	250W
Input connector	Euro-block chainable

Sensitivity	91.5dB / 1W / 1m
Max SPL at 1 m	113dB
Frequency response at -10 dB	47Hz - 20kHz

Drivers	8" woofer + 1" compression

100V OPTION DATA :	
Transformer type	Toroidal.
Single tap	100W
Max SPL at 1m	109dB
Frequency response	47Hz - 20kHz
Weight including 100V option	9.33kg

You will be amazed by the Vendôme Five. There is nothing to suggest that its compact body and sleek appearance are capable of delivering such impressive performance.

In addition to its space-saving design and its ability to fit in anywhere, Vendôme Five achieves a stunning level of musical performance.

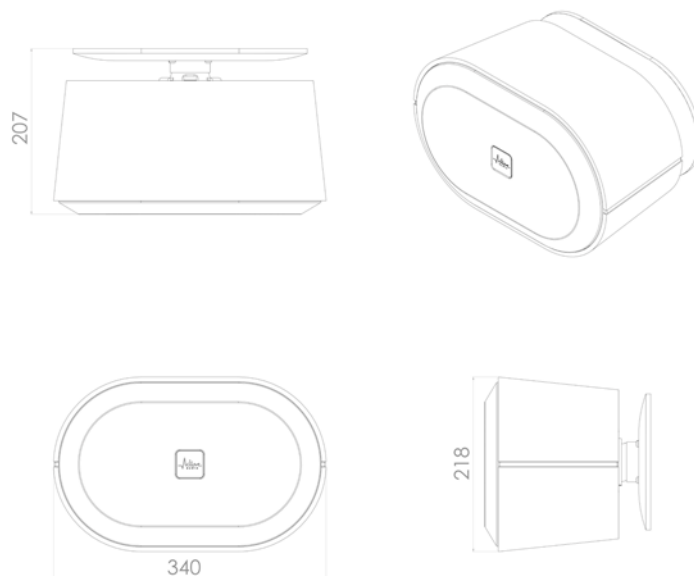

This discreet product is the ideal solution for creating

a high-quality musical atmosphere in reasonably-sized areas. It can also be installed in larger venues in combination with the Vendôme Eight, which shares the same eye-catching build and sound quality.

Vendôme Five gives you the freedom to match the aesthetics of your loudspeakers with the interior design of your venue, meaning that you can create your own sound environment and your own visual identity.

ACTIVE AUDIO PRESENTATION

Active Audio is a French manufacturer of professional loudspeakers, we have been forging a reputation since 2002 for its expertise in developing signal processing solutions and designing dedicated products for the professional audio market.

Our products have gained a global reputation for their superior sound performance, intelligibility

and neutrality, and are regularly installed in prestigious, yet acoustically challenging venues.

Our products are masterminded by a team of avid engineers and bear testament to years of innovation, mature reflection and creativity. We are driven by our simple aim of achieving superlative performance without affecting the venue's aesthetics.
